- Architectural firm:  
Rosetti
- Engineering firm:  
Paulus, Sololowski & Sartor, LLC
- Construction manager:  
Hunter Roberts Construction Group, LLC

## Products and Services

The contract awarded to Structural-Heavy Steel Construction was for the supply, fabrication and erection of 6,050 tons of structural steel and metal deck, including design-assist and detailing services.

## Highlights

The 25,000-seat stadium features a unique roof top, which extends from the last seat to just over the touchlines. The curved roof structure required 12 cantilever roof trusses and 42 tapered bent trusses, each measuring 130 feet long by 103 feet high and weighing 16 tons.
